

# ACACIA COUNSELING AND WELLNESS

GROWTH STARTS HERE

01.

# Our Journey

Acacia was formed in 2014 to **tear down barriers and advocate for students** in their search for better outpatient mental health care. Today, Acacia is the leading provider of outpatient, college student mental health in seven cities across California and Minnesota and have **served more than 9,000 college students** in their mental health journeys.

# Our mission

 College student growth

Provide college students a safe, supportive space in which they receive quality and consistent mental health care that is highly accessible, affordable, specialized, and culturally sensitive.

# Our Core Values

**1**

We are  
**Passionate**

We care about the students we serve and it shows in the quality of care Acacia students receive.

**2**

We are  
**Inclusive**

Different identities allow us to provide a more enriching environment and find more creative solutions.

**3**

We are  
**Growing**

Acacia works to open new clinics, expand services, and promote personal and professional growth.

**4**

We are  
**Supportive**

We know that no one can do it by themselves and it takes a community to do great things.

**5**

We are  
**Fun**

The work we do is very serious but it's important for us to laugh, smile, and have fun when we can!

We strongly value our **collaboration with clinical providers** and their expertise! Acacia is a resource for **university students and faculty** and we want to grow alongside everyone by **hiring providers that represent our communities**, making a student's first interaction with therapy **encouraging and impactful.**

We strongly believe in creating a **family at Acacia** and we **extend that invitation to you!**

05.

“We love serving students! It is our passion and our life’s work. There is nothing more fulfilling to us than to see students thrive in the face of adversity and develop into even more amazing versions of themselves.”

# Why Acacia?

We offer **long-term therapy, medication management, and wellness activities** all in one place! We hire clinical teams that **represent our communities and are passionate about the work.**

We believe in **equity in mental health access** which means we strive to engage our communities' needs and help build resources within Acacia. We have a yearly internship program for undergraduate students called **Mental Health Advocate's Program** and if a student cannot afford our services we have an **in-house financial aid program called Roots** that provides expense-free sessions a year. These along with **committee membership roles, professional growth opportunities,** and **competitive salary and benefits** make Acacia a great place to be.

# We are excited for you to join our community.
